

MMG Registration — How to Register

Customer & Partner Support Knowledge Base — Retrieval Source Document

Prepared for: 6D AARYA AI Fabric — MMG conversational assistant (Chatbot, WhatsApp, Voice BOT) · RAG ingestion · Version 1.0 · September 2026

1. Purpose and Scope

This document is a retrieval source for an AI assistant that explains how to register for Mobile Money Guyana (MMG). It covers who can register, the documents required, the step-by-step self-registration journey in the mmg Customer app, verification and approval, and common registration problems. Each section is written to stand alone for RAG retrieval.

Scope: individual customer registration (self-registration in the app and assisted registration at an agent/MMG office), plus a summary of business partner onboarding (agents, merchants, billers, disbursement partners). Follow-up on a submitted business registration or KYC upgrade is handled by the separate Business Registration Follow Up use case; full partner onboarding by the New Registration (Merchant/Agent/Biller/DP) use case.

Use case mapping: MMG AI Use Case #2 “How to Register?” (RAG-based, all channels). The assistant gives instructions; it **does not approve** a registration — approval is always done by the MMG back office.

Source note: eligibility, document requirements and the SMS/e-mail password-setup step reflect MMG’s website (How it Works, FAQs), the Registered Customer Terms & Conditions (2025) and the MMG process confirmed on 20 Aug 2026 (self or admin registration, both followed by approval; limited privileges before approval, full KYC on approval). Values marked † are illustrative demo values and must be confirmed by MMG before production use.

2. How the Assistant Should Use This Guide

Start with the eligibility check in Section 3, then share the document checklist (Section 4) so the customer can prepare before starting. Walk through the app steps in Section 5 one step at a time and wait for the customer to confirm each step. If the customer reports a problem (no OTP, document rejected, “already registered”), go to Section 9. On Chatbot and WhatsApp, share the app download link and mmg.gy; on Voice BOT, offer to send the link by SMS.

- **Never ask for, accept or repeat** the customer’s PIN, password, OTP, full card number or CVV. If a customer types one, tell them not to share it and advise them to change it.
- **Read-only and guidance only:** the assistant explains how things work; it does not approve registrations, move money, reverse transactions, change account status or edit KYC details.
- **Sensitive actions route to their own flow:** transaction rollback, suspend/resume, emergency wallet lock, scam reporting, change of number/ownership, account termination and tier upgrade are handled by dedicated maker-checker use cases with back-office approval.
- **Do not guess figures.** For any fee, limit or processing time not stated in this document, tell the customer that the exact charge is shown in the app before they confirm, or offer to connect them to the Call Centre.
- **Voice BOT:** keep answers to two or three short sentences, read numbers slowly, and do not read out links — offer to send the link by SMS/WhatsApp instead.

3. Registration Eligibility

Criterion	Requirement
Age	18 years or older with full legal capacity to enter a binding contract. A parent or legal guardian may open an account for a minor.
Mobile number	An active mobile number on any network in Guyana (One Communications, Digicel or ENet). The number becomes the MMG wallet number; one wallet per number.

Criterion	Requirement
Device	A touchscreen smartphone that can run the mmg Customer app (iOS 15 or later on iPhone; supported Android version — see KB-MMG-03).
Identity	A valid, unexpired government photo ID (National ID Card, Driver's Licence or Passport).
Address	Proof of address dated within the last 6 months.
Tax number	Taxpayer Identification Number (TIN).
Contact	A valid e-mail address (used for the password-setup link and notifications).
Bank account	Not required. MMG is open to unbanked and underbanked customers.

4. Required Documents and Information

4.1 Individual Customers

Item	Accepted examples	Notes
Photo ID (one of)	National ID Card · Driver's Licence · Passport	Must be valid and clearly readable; photograph front (and back for ID card/licence)
Proof of address	Utility bill (GPL, GWI, One Communications), bank statement, or official letter	Dated within 6 months; name should match the ID
TIN	TIN certificate or number issued by GRA	Enter the number in the form
Personal details	Full name as on ID, date of birth, address, e-mail	Must match the documents
Selfie (if prompted)	Live photo taken in the app	Used to match the ID photo

4.2 Business Partners (Summary)

Agents, merchants, billers and disbursement partners register through MMG Business (mmg.gy/business) or the **MMGBusiness – Agent & Merchant** app. Typical documents[†]: business registration certificate, TIN and VAT certificates, valid ID and proof of address for owners/directors, trade licence where applicable, business address and bank account details for settlement. The assistant should list the mandatory documents, direct the applicant to the upload location, and raise a ticket to the back office — onboarding requires MMG verification and maker-checker approval.

5. Registration Steps — Self-Registration in the App

1. **Download the app:** search “mmg Customer” in the Apple App Store or Google Play Store and install it. It is free to download.
2. **Open the app and tap “Register now”.**
3. **Enter your mobile number** and tap Continue. An OTP (one-time password) is sent by SMS to confirm you own the number.
4. **Enter the OTP** within the time shown on screen.
5. **Fill in your personal details** exactly as they appear on your ID: full name, date of birth, e-mail address, residential address and TIN.
6. **Upload your documents:** take clear photos of your ID and proof of address (and a selfie if prompted). Make sure all four corners are visible, there is no glare and the text is readable.
7. **Review and accept** the MMG Terms & Conditions and Privacy Policy. Your electronic acceptance has the same legal effect as a signature.

8. **Submit.** You will see a confirmation that your application is under review. Your account is created with limited access while MMG verifies your documents.
9. **Approval:** once MMG approves your KYC, you receive a **password-setup link by SMS and e-mail**. Open the link on your phone and create your password.
10. **Set your PIN and sign in.** Create a transaction PIN, optionally enable fingerprint/Face ID, and your wallet is fully active.
11. **Add money** at an agent, by bank transfer or by card to start transacting (see KB-MMG-01 and KB-MMG-04).

6. Assisted Registration (Agent or MMG Office)

Customers who need help can register with assistance at the MMG office (4th Floor, Pegasus Corporate Suites, Kingston, Georgetown) or at participating MMG agents. Bring the original ID, proof of address and TIN. The MMG staff member or agent captures the details and documents on the customer's behalf; the application then goes through the same MMG approval process, and the customer receives the password-setup link by SMS and e-mail on approval.

7. Verification Process

Check	What happens	Typical time
Mobile number (OTP)	SMS OTP confirms the customer owns the number	Immediate
Document & ID check	MMG back office checks the ID, proof of address and TIN, and that details match the form	Within 1–2 business days†
Duplicate check	System checks the ID and number are not already linked to another wallet	Automatic
Approval (maker-checker)	An MMG officer approves the KYC; a second officer confirms where required	Within 1–2 business days†
Password setup	Secure one-time link sent by SMS and e-mail; validates that the same person completes the setup	On approval

8. Registration Rules and Fees

- **Registration is free.** There is no monthly fee.
- **Minimum first deposit:** G\$500 to start using the wallet (can be loaded at an agent, by bank transfer or card).
- **One wallet per mobile number and per person.** Duplicate registrations are rejected.
- **Details must match the ID.** Applications with mismatched names, expired ID or unreadable documents are returned for correction.
- **Before approval:** the account has limited privileges (Light level). **After approval:** full KYC access (Silver level) applies. Higher limits (Gold) require an upgrade request reviewed by MMG.
- **The AI assistant cannot approve, speed up or override** a registration decision; it can only explain the process and raise a follow-up request.
- **Keep details up to date.** Changes to name, address or ID after registration follow the Update Account Details process with supporting documents.

9. Common Registration Issues

Issue	Likely cause	What to tell the customer
OTP not received	Weak signal, SMS delay, wrong number entered, SMS inbox full	Check the number, wait 60 seconds and tap Resend OTP. Make sure you have signal and SMS space. Try restarting the phone. If still not received after 3 attempts, contact the Call Centre.
OTP expired / invalid	Code entered after the timer ran out or mistyped	Request a new OTP and enter it promptly. Use only the latest code received.
Document rejected	Blurry photo, glare, cropped corners, expired ID, address proof older than 6 months	Retake the photo in good light on a flat surface with all corners visible, and use a valid ID and a recent proof of address.
Name mismatch	Form name differs from ID (initials, spelling, married name)	Enter your name exactly as on your ID. For a name change, bring the supporting certificate.
“Number already registered”	Wallet already exists on that number (possibly an older or dormant account)	Try Forgot Password to recover the existing account. If the number was recycled or you did not register it, contact the Call Centre.
Duplicate ID	The ID is already linked to another wallet	Contact the Call Centre; MMG will verify ownership.
No password-setup link	Application still under review, e-mail in spam/junk, wrong e-mail	Check spam/junk and SMS. If more than 2 business days have passed, ask for a follow-up — the assistant can raise a Business Registration Follow Up request.
Link expired	The one-time link was not used in time	Use Forgot Password in the app to request a new link.
App will not install	Unsupported OS version or low storage	Update the phone OS, free up storage and retry. See KB-MMG-03.

10. Registration FAQs

Q: How do I register for MMG?

A: Download the mmg Customer app, tap Register now, confirm your number with the OTP, fill in your details, upload your ID and proof of address, and submit. After MMG approves your documents you receive a link by SMS and e-mail to set your password.

Q: What documents do I need?

A: A valid photo ID (National ID, Driver’s Licence or Passport), proof of address from the last 6 months, and your TIN, plus an e-mail address.

Q: Does it cost anything to register?

A: No, registration is free and there are no monthly fees. You need a minimum first deposit of G\$500 to start transacting.

Q: How long does approval take?

A: Most applications are reviewed within 1–2 business days. You will get an SMS and e-mail with your password-setup link once approved.

Q: Can I use MMG while my registration is being reviewed?

A: Your account has limited access until approval. Full services and limits apply once your KYC is approved.

Q: I don't have a bank account. Can I still register?

A: Yes. MMG does not require a bank account. You can add money at any MMG agent.

Q: Can I register if I am on Digicel or ENet?

A: Yes. MMG works on One Communications, Digicel and ENet.

Q: Can I open an account for my child?

A: Customers must be 18 or older, but a parent or legal guardian can open and manage an account for a minor. Please contact MMG for the guardian process.

Q: Can I register without a smartphone?

A: No. MMG requires a touchscreen smartphone to run the app. Someone without a wallet can still receive a Mobile Money Order and collect cash at an agent.

Q: Can I register two numbers?

A: Each wallet is linked to one mobile number and one verified person. Contact MMG if you have a specific business need.

Q: I want to become an MMG agent or merchant. How do I register?

A: Sign up through MMG Business at mmg.gy/business or the MMGBusiness – Agent & Merchant app. I can list the documents you need and raise your application to the MMG team for verification.

Q: Can you approve my registration?

A: I can't approve registrations — that is done by the MMG verification team. I can check what is missing, explain the next step, or raise a follow-up request for you.

11. Escalation and Contact Details

Escalate when: the OTP fails after three attempts; documents are rejected twice; the number or ID is reported as already registered; approval has taken more than 2 business days; or the applicant is a business partner ready to submit. On Chatbot/WhatsApp raise a ServiceNow/Zendesk ticket with the mobile number, name and issue summary (never the ID number in free text); on Voice BOT hand over to a human agent.

- **Call Centre:** 0664 (from a One Communications line), or 222-0664 (from Digicel, ENet or any other line). Hours: Monday to Sunday, 7:30 AM – 8:30 PM.
- **E-mail:** customerservice@mmg.gy for non-urgent account, service or document queries.
- **Walk-in:** MMG office, 4th Floor, Pegasus Corporate Suites, Kingston, Georgetown, Guyana.
- **Website / Web Portal:** www.mmg.gy — FAQs, agent locator (mmg.gy/agents), merchant list (mmg.gy/merchants) and Terms & Conditions.
- **Social media:** @yourmmg on Facebook and Instagram for announcements and promotions.

12. Maintenance Notes for This Document

Review when the registration screens in the mmg Customer app change, KYC document rules or the minimum deposit change, a new partner type is introduced, or approval SLAs are revised. Replace † illustrative values with MMG-approved figures before production go-live.
